Documentation

Installing the theme and begin customizing it

In this documentation I'll assume you know how to install a WordPress theme. So, first unzip the file you downloaded. In the folder you'll find 4 subfolders: attributions, documentation, example-images and tanis-theme. The last (tanis-theme) is the theme that you have to upload in your WordPress' themes folder (wp-content/themes). After activating the theme you'll find an option in the left menu of your Wordpress admin panel, called Tanis Theme Options. From there you can set up the Tanis coming soon theme.

The General tab

When you click on Tanis Theme Options, you'll go in a page with 8 tabs, each one modifies a section of the theme. From the first one, called General, you can set up the main color of the theme that will be used for buttons, hovers and links. From this tab you can also upload a favicon (you can find an example icon in the "example-images" folder).

The Coming Soon tab

From this tab you can customize the top section of the theme, the one with the countdown timer. Here you can set up the text, logo, timer, background images. If you upload more than one background image, the images will slide automatically. You can find some example images in the "example-images" folder.

The sortable sections

The next 5 tabs (The project, Subscribe, Testimonials, About us, Contact) refer to sections (with same names) of the page that can be ordered or disabled. You can also decide the type of background to use for these sections: white or fullscreen image. Along with these options you can also customize the text and icons depending on the type of section.

MailChimp Subscription Form

This theme is also integrated with MailChimp, you can set it up in the Subscribe tab. You'll need:

A "MailChimp API Key" that you can learn how to find here:
http://kb.mailchimp.com/accounts/management/about-api-keys

and a "MailChimp List ID" that you can learn how to find here:
http://kb.mailchimp.com/lists/managing-subscribers/find-your-list-id

The top menu

Each section (tab) has an option where you can enter the text you want to display on the top menu for that section.

The Footer tab

In this tab you can enter the copyright text, add the social icons and your social media profile links that will appear in the footer section.

How to contact me?

For every question, information or suggestion, here are some useful links you can use to contact me:
